Training Weapons - How the System Works

Reference sheet built from the live server code. Generated 2026-10-17. All tries/hour figures are at **x1 rate** - see section 4 for how to apply your world rate and boosts.

1. How it works

• Training gear only works on a **Training Dummy**. Attacking anything else is refused ("You can only use this weapon on a training dummy").

• Every training item has **10,000 charges**. Each weapon attack (hit or miss) or each shield block on the dummy uses **1 charge**. At 0 charges the item turns into its depleted version.

• Training gear replaces the normal dummy penalty with its own power: **80%** of a normal skill point, on every tier. Normal weapons on a dummy get a 50% chance below skill 50 and 75% from skill 50 (and pay the penalty roll).

• **Set bonus +3%** (83% total) when a training weapon and a training shield are both equipped. It applies to the weapon and to the shield.

• **Transcendent** tier has **Focus 2%**: each action has a 2% chance to count double (green effect, "FOCUS" in the log). On average that is x1.02.

• Tiers only differ in **attack speed** (1800 / 1700 / 1600 / 1500 ms) and Focus. Tries per charge are the same (except Focus), so a higher tier gives the same total from one item, just **faster**.

• The **shield** trains when the dummy's attack is blocked. The dummy attacks once every 2 s no matter which tier you use, so all shield tiers train at the same speed (1,800 blocks/hour max). Higher shield tiers only add Focus (Transcendent).

• The **wand** (sorcerers and druids) trains **magic level**: 4 mana spent per shot x power, without using your mana. It gives no other skill. Your normal mana regeneration and spellcasting are separate and add on top.

• Skill points still follow the classic "draw blood" rule: you need to keep hitting the dummy for damage; 30 blocks/attacks can be counted between hits that draw blood. In normal training this never runs out.

• Every hit is reported in the **Training Stats** channel, e.g. *[transcendent training shield] +1 shielding (83%) | 9871 charges left*.

2. All training items

Item	Trains	Speed (ms) C / O / OF / T	Points per action	Avg tries per charge solo / with set (T)	Total from 1 item with set, C-OF / T
Training Sword	Melee (sword/club/axe skill)	1800 / 1700 / 1600 / 1500	1	0.80 / 0.83 (0.847) tries	8,300 / 8,466 tries
Training Spear	Distance	1800 / 1700 / 1600 / 1500	2 (1 if defense-blocked)	1.60 / 1.66 (1.693) tries	16,600 / 16,932 tries
Training Shield	Shielding	dummy: 2000 (all)	1 per block	0.80 / 0.83 (0.847) tries	8,300 / 8,466 tries
Training Wand	Magic level (sorc/druid)	1800 / 1700 / 1600 / 1500	4 mana	3.20 / 3.32 (3.386) mana	33,200 / 33,864 mana

Tier	Speed	Weapon actions/hour	Shield blocks/hour	One weapon lasts	One shield lasts	Focus	Sword tries/h	Spear tries/h*	Shield tries/h	Wand mana/h
Charged	1800 ms	2,000	1,800	5.0 h	5.6 h	0%	1,660	3,320	1,494	6,640
Overcharged	1700 ms	2,118	1,800	4.7 h	5.6 h	0%	1,758	3,515	1,494	7,031
Overflux	1600 ms	2,250	1,800	4.4 h	5.6 h	0%	1,868	3,735	1,494	7,470
Transcendent	1500 ms	2,400	1,800	4.2 h	5.6 h	2%	2,032	4,064	1,524	8,127
Normal weapon (ref.)	2000 ms	1,800	1,800	-	-	-	900 / 1,350**	-	900 / 1,350**	-

Rates above use the set bonus (weapon + shield both training items) and x1 world rate. * Spear: 2 points per hit, 1 when the dummy blocks with its defense, so the real figure is between half and the value shown. ** Normal gear on a dummy: 50% chance per action below skill 50, 75% from skill 50.

3. Training gear vs normal weapons (and attack-speed weapons)

• A **normal weapon** on the dummy rolls the dummy penalty on every hit: **50%** chance to count below skill 50, **75%** from skill 50. Training gear always counts **80%** (83% with the set, x1.02 Focus on Transcendent) and never pays the penalty.

• Normal weapons attack every **2.0 s**. The **Attack Interval** attribute (upgrades/artifacts) lowers that to 1.9 / 1.8 / 1.7 / 1.6 / 1.5 s (tiers 1-5). Training tiers have their speed built in: 1.8 / 1.7 / 1.6 / 1.5 s.

• The guild **Attack Speed** buff (+1% to +6%) shortens the interval of **any** weapon, training gear included, so it does not change the comparison.

• A **normal shield** blocks at the same rate as a training shield (the dummy hits every 2 s), so only the 50%/75% vs 83% chance differs.

• A **normal wand/rod** gives no free magic level: it only counts the mana it costs you. The training wand gives 4 mana spent per shot for free.

• A training shield with a normal weapon still trains at 80% but there is **no set bonus** (needs both pieces).

Transcendent training (set)	1.5 s	2,032	46.0	5.8

Melee 60 → 70 for a knight costs 93,545 tries. Training items used for it: about 11.3 (Charged-Overflux) or 11.0 (Transcendent).

4. Formulas and multipliers

• **Tries per action** = points x (80% + 3% set bonus) x (2x on a Focus proc). Fractions are rolled: 0.83 = 83% chance of 1 try.

• **Skill tries needed for level L to L+1** = base x multiplier$^{(L - 10)}$. Base: melee/fist 50, distance 30, shielding 100. Every level costs *multiplier* times the previous one (+10% for a knight's melee).

• **Mana needed for magic level M to M+1** = 400 x manamultiplier^{M} (sorcerer/druid 1.1, paladin 1.4, knight 3.0).

• **Skill rate applied on every gain** (skills): rateSkill (world) x max(Voucher x2, Skill boost event) x Mad Santa scroll x2 x Global Skill Gain +10%. Voucher and boost event do not stack, the higher one wins.

• **Magic rate**: rateMagic (world) x Magic boost event x Global Skill Gain +10%. The voucher does **not** boost magic level.

• **To use the tables**: divide every "charges" and "hours" value by your total multiplier. Example: with a voucher (x2) and the global +10%, divide by 2.2.

Vocation	Melee (sword)	Distance (spear)	Shielding	Magic (mana mult.)	Can use training wand
Knight / Elite Knight	1.1	1.4	1.1	3.0	No
Paladin / Royal Paladin	1.2	1.1	1.1	1.4	No
Druid / Elder Druid	1.8	1.8	1.5	1.1	Yes
Sorcerer / Master Sorcerer	2.0	2.0	1.5	1.1	Yes

Higher multiplier = slower skill. Swords, spears and shields have no vocation lock; the wand is sorcerers/druids only.

5. What ONE item gives, by starting level (x1 rate, with set bonus)

Start at the given level with 0% and use one full item (10,000 charges). Value = levels gained (e.g. +1.50 from 55 = level 56 and 50% of 57). Non-Transcendent tiers give the same as each other; Transcendent gives 2% more.
